

SAVE BAYSIDE COMMUNITY CHILD CARE

Bayside Council has announced that it will close it's two child care centres in Hampton and Sandringham.

The Council made this decision in secret without consulting staff, families or the Bayside Community.

These centres have been providing care to Bayside children and their families for over 30 years.

The fee's charged by the Council for these childcare services are on par with other private operators in region and we question the claims made that they require subsidising.

Council will not commit to what the future plans are for these sites.

There is a two-year waiting list for child care in Bayside.

How can I help?
